Login.feature TestRunner.java StepDefinition.java

1 Feature:  
2 To validate login functionality of facebook Application

4 Background:  
5 Given user is in facebook login page

9 Scenario Outline:  
10  
11 To validate login by using different credential  
12  
13 When user enter invalid "<username>" and "<password>"  
14 And user click login button  
15 Then user should be in invalid credential page

17 Scenario Outline:  
18  
19 To validate login by using different credential  
20  
21 When user enter valid "<username>" and "<password>"  
22 And user click login button  
23 Then user should be in invalid credential page

28 Examples:  
29 | username | password |  
30 | Gsn@123 | Gsn123 |  
31 | Rabi@123 | rabi123 |  
32 | Raghu@1234 | Rghu123 |  
33 | suriya@123 | suriya1234 |  
34 | amar@123 | amar123 |  
35 | sumanraj@123 | suman123 |  
36 | Sathish@123 | sathish1234 |  
37 | enithan@123 | enithan123 |  
38 | dravit@123 | dravit123 |  
39 | vetri@123 | vetri123 |
